[LinkedIn](#) | [GitHub](#)

Software Developer with hands-on experience in building full-stack and AI-powered web applications using React.js, Next.js, Node.js, Fastify, and MongoDB. Strong expertise in REST APIs, authentication, real-time systems, and backend problem-solving. Experienced in integrating AI-based transcription and automation tools. Solid foundation in Data Structures & Algorithms.

Skills

- **Programming Languages:** C, C++, JavaScript
- **Web:** HTML, CSS, React.js, Node.js, Tailwind, Express.js, Socket.io, RESTful APIs
- **Tools:** Git, GitHub, VS Code, Postman, API Integration, Browser DevTools, Jupyter, LocalWP, Whisper, Power BI
- **Core – DSA , Rest API, Prompt Engineering**

Work Experience

- **Web Development & AI Intern – OpenBlockAI**

Dec 2025 – Feb 2026 (Remote)

Working on frontend development using React.js to build responsive and user-friendly interfaces. Gaining exposure to blockchain-based and compliance-focused web platforms in an agile team.

- **Python Development Intern – Octanet**

Aug 2024 – Sep 2024 (Remote)

Developed basic **Python scripts** for ATM simulation and file handling operations. Recognized among **Top 5 Performers** for logical implementation and on-time task completion.

- **Business Development Executive – FPS Subtitle**

Mar 2025 – May 2025 (Remote)

Coordinated with technical and operations teams to understand project requirements. Assisted in documentation, client communication, and workflow optimization. Worked closely with cross-functional teams, improving delivery timelines by **15%**.

Projects

AI Notes Maker | Full Stack App (Node.js, Fastify, Next.js, React, Tailwind, Whisper) [Link](#)

- Built a multi-modal web app to generate notes from PDF, text, audio, and video.
- Implemented Fastify backend, React frontend, and Whisper-based transcription.

Career Counselling Website (React, Node.js, Python, Socket.io) [Link](#)

- Developed a dynamic portal aligned with NEP 2020 with real-time mentoring features.
- Built responsive UI and backend APIs with real-time data handling.

Donation Management Platform (HTML, CSS, JavaScript) [Link](#)

- Created a donor-beneficiary system with authentication and role-based access.
- Designed responsive UI with client-side validation.

Achievements / Certificates

- **Introduction to Deep Learning by Great Learning**
- **C++ Training Certification - IIT Bombay**
- Honored to be named a finalist in **Internal Smart India Hackathon – 2024 and 2023 (Team Leader)**
- **Top 10, HackJNU 3.0 – (Team Leader)**

Education

- **B.Tech in Computer Science & Engineering (AI and ML)**

Panipat Institute of Engineering and Technology

Aug 2022 – Present
